EDUCATION

Prestige Institute of Engineering Management & Research (PIEMR) 2024 - 2028

Bachelor of Technology (B.Tech) in Computer Science & Engineering (2nd Year)

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (OOP in C++), Cloud Computing, DBMS.

TECHNICAL COMPETENCIES & SKILLS

Languages: Python, C++, TypeScript, JavaScript, SQL, HTML5, CSS3

Frameworks: Next.js 15, React 19, Node.js, Express.js, FastAPI, Tailwind CSS, REST APIs, WebSockets

Cloud & Tools: Google Cloud Platform (5x Certified), AWS Cloud, Docker, Git, GitHub, Linux, Vercel

Specializations: Fullstack Web Architecture, Multi-Agent AI Systems, OOP System Design, Cloud-Native Logic

DISTINCTIONS & GLOBAL ACCREDITATIONS

*** Top 10% Replit Agent Developer:** Ranked globally for autonomous AI architectures & agent orchestration.

*** 5x Google Cloud Certified:** Verified tracks in AI/ML, Data Analytics, Engineering & Cloud Architecture.

*** 33+ Credly Skill Badges:** Official Google Cloud & partner accreditations (credly.com/users/indresh-mourya).

*** NASA Open Science 101:** NASA Open Science 101 & Open Science Essentials accredited via Credly transcript.

EXPERIENCE & COMMUNITY LEADERSHIP

Campus Ambassador - Entrepreneurship Cell, IIT Bombay Jun 2026 - Present

- Appointed by E-Cell IIT Bombay to direct developer hackathons & technical entrepreneurship across campuses.

AWS Student Builder Campus Leader - Amazon Web Services (AWS) Jun 2026 - Present

- Spearheading AWS cloud learning cohorts, hands-on bootcamps, and technical mentoring for 100+ students.

Lead Media Coordinator - PIEMR Media Club & Tech Fest URJOTSAV 2K26 Jun 2026

- Directed digital broadcasting infrastructure, media branding, and technical workflows for university symposium.

FEATURED ENGINEERING PROJECTS

Dr. Decode AI - Clinical Laboratory & Biomarker Informatics Engine [Next.js, Groq LLaMA 3, Three.js, Tesseract]

- Engineered intelligent clinical lab analyzer with neural OCR simulation, 3D molecular DNA visualizer in Three.js, and multi-language layperson medical report translations across 7 regional languages.

SatyaDrishti AI (?????????) - Multi-Modal Threat & Fake News Intelligence Platform [React, Node.js, Express, Tailwind]

- Developed fullstack digital safety platform with multi-modal scam search (text, voice, photo, file analysis), real-time threat monitoring dashboard, and gamified cyber-awareness verification modules.

Lost & Found Management System - High-Performance Item Tracking Core [C++, OOP Architecture, File I/O]

- Engineered institutional item tracking system in C++ with custom AVL tree indexing, zero memory leaks, and binary journals.
